

Unlock Your Future with Yuvabe Education's Corporate Sustainability Course

Program Overview

Are you passionate about driving positive environmental and social impact? Yuvabe Education's Corporate Sustainability Program is a three-month, full-time, in-person course designed to provide immersive learning in the heart of Auroville's sustainable ecosystem. Equip yourself with the knowledge, skills, and network to create meaningful change in your career and beyond.

- **Duration:** 3 months (17 Feb – 9 May 2025)
- **Learning Mode:** In-person, classroom sessions
- **Location:** Saracon Campus, Yuvabe, Auroville, Tamil Nadu, India
- **Certification:** Corporate Sustainability Program Completion Certificate
- **Expert Guidance:** Learn directly from sustainability leaders and industry experts
- **Paid Internship:** Top 5 students will receive a 3-6 month paid internship with Yuvabe

This full-time program combines theoretical learning with real-world applications through hands-on projects and live capstone presentations. Gain practical skills and actionable insights to address global sustainability challenges.

Why Choose Yuvabe Education's Bridge Program: Corporate Sustainability Course?

- **Immersive Learning:** Engage in interactive classroom sessions and hands-on projects.
- **Expert Mentorship:** Learn from industry leaders and sustainability experts.
- **Real-World Impact:** Work on live projects with Auroville's sustainable organisations.
- **Career Support:** Enhance employability with practical skills and career-building workshops.
- **Affordable & Inclusive:** Scholarships available, including 100% scholarships for five eligible women from the bioregion.
- **People Skills Development:** Gain communication, teamwork, and leadership skills through Yuvabe's Evolve Program.

What You'll Learn

This program offers a blend of classroom instruction and practical experience across nine modules:

- **Environmental Science and Conservation:** Understand the basics of environmental studies and climate science.
- **Sustainable Development and Policy Frameworks:** Learn about global policies and frameworks for sustainability.
- **GHG Accounting and Carbon Footprinting:** Master techniques for tracking and reducing carbon emissions.
- **Circular Economy and Resource Management:** Explore innovative approaches to resource efficiency.
- **Corporate Sustainability and ESG Frameworks:** Gain insights into integrating ESG strategies into business.
- **Social Impact Assessment and Stakeholder Engagement:** Learn to design and evaluate impactful projects.
- **Sustainable Agriculture and Permaculture:** Delve into eco-friendly farming practices.
- **Decarbonisation:** Acquire skills for implementing carbon reduction strategies.
- **Capstone Project:** Apply your knowledge to real-world sustainability challenges.
